- JavaScript
- BootStrap

EXPERIENCE

Software Development Student, CodeWorks
Sept 2020- Present

- Collaborated with 3 other developers building a full stack application for tracking goals and challenging other users
- Practiced Partner Programming to ensure efficiency and timely completion
- Debugged coding errors and communicated with peers and seniors regarding unknown errors
- Built several applications utilizing various technologies
- Implemented Scrum practices with team applications
- Utilized Figma to create mock-ups of design features
- Integrated Auth0 for user authentication on applications
- Worked with multiple APIs to integrate with applications
- Acted as a Product Owner and Scrum Master during capstone project building a full stack application

Account Coordinator, SlideGenius
May 2019 - April 2020

- Ensure that all graphic design projects are delivered on-time, within scope, and within budget
- Develop a detailed project plan to monitor and track progress for all internal design projects
- Perform risk management to minimize project risks to ensure projects were completed on time and within budget
- Meet budgetary objectives and adjust project constraints based on financial analysis
- Assist in the definition of project scope and objectives, involving all relevant stakeholders and ensuring technical feasibility

Account Manager, FirePoint Solutions
Sept 2018 - May 2019

- Introduce clients to our Customer Relationship Management platform built for real estate agents
- Strategically use time management to handle phone calls, emails, and incoming chats.
- Handle between 50-70 emails, 10-20 live chats, and 20+ phone calls daily
- Deescalate upset customers that could potentially cancel their service.
- Troubleshoot any and all problems within the CRM.

EDUCATION

Certificate of Completion, CodeWorks
Full Stack Software Development
January 2021

Bachelor's Business Administration, Boise State University
2018
